

# *Timeless Tradition*

## **French Provincial Furniture: Rich tradition throughout History.**

French provincial furniture dates back to the Romanesque period on the X century, but it was not until the XVI century, when, under the influence of the Italian Renaissance, and under the command of leaders such as King Louis XV of France, the aesthetics of it became what we mostly know today.

Our Furniture was conceived with the ambitious idea of reproducing these unique styles using new technology that offers greater strength, comfort and durability. We have the most robust and modern facilities in the western hemisphere, with a surface area of 150,000 square feet. We are proud of our 150 employees as well as of our engineering team at each of our different production areas. Here we manufacture all of our furniture from beginning to end, using an advanced production technique that combines wood, metal and polyurethane. Longer durability, and unmatched elegance is guaranteed.

Each piece of furniture is hand-finished and decorated, and any of our extensive variety of models can be ordered in several finishes such as: Mahogany, Walnut, Gold, Silver, Ivory and Pearl.

For upholstery models, we have a wide array of Italian-made fabrics that will give your furniture the distinctive look you deserve.

Let yourself be amazed at the intricacy and time put into each piece of furniture. We hope you will be able to examine an actual sample to fully appreciate this artistic work.
